deteriorating the county roads because they were not established as 80,000 pound roads. FINANCE COMMITTEE REPORT: Given by Chairman Megan Beeler as follows:

1. Forrestal Group Power Plant Assessment Proposal Update/Approval: Beeler reported that the taxing bodies for the Dynegy Power Plant parcels attended a meeting on September 14th, 2016 to discuss a proposal from Consultant Gene Stuard of the Forrestal Group to negotiate and perform a new assessment of the Power Plant. She said that the ten year agreement that was

negotiated with the help of Stuard will expire soon and the Finance Committee is asking the affected taxing bodies to help share in the cost of his consulting fees due to the financial hardship the county is facing. Beeler stated that they reached a tentative agreement with the taxing bodies who will help pay for the consulting fees with the understanding that if the coal mine were to re-open and the county started to collect royalties again in excess of \$250,000 within a five year period we will reimburse the taxing bodies for their portion of the taxes. Beeler stated that the total agreement is in the amount of \$83,700 with the county portion of the cost at \$12,781.

Motion by Beeler and second by Young to hire the Forrestal Group to negotiate a new assessment with the power plant for an amount not to exceed \$83,700. Roll Call Vote- 20 Yes and 0 No, 1 Absent. Voting Yes were Mary Bathurst, Connie Beck, Megan Beeler, Bill Bergen, Nikki Bishop, Ronald Deabenderfer, Joe Gasparich, Chuck Graden, Heather Hampton+Knodle, Roy Hertel, Tim Hopper, Jay Martin, Gene Miles, Jim Moore, Mike Plunkett, Glenn Savage, Bob Sneed, Mike Webb, Richard Wendel, Evan Young. **None voting no.** Earlene Robinson was absent. **Motion by Beeler and second by Moore to hire the Forrestal Group to represent the County on the Dynegy assessment contingent on the other taxing bodies approving their portion as proposed with an agreement that we will pay them back when we have received more than \$250,000 in coal royalties within five years.** Discussion: Moore stated that Dynegy has hired a group to represent them and is ready to fight so we should be ready to respond and that Mr. Stuart is the man for the job. Beeler stated that Jasper County lost a 40% reduction in their assessment because they lost the appeal with their power plant so she supports hiring a consultant to represent us. Plunkett stated that they have lawyers working on this so we need a body of evidence to support what this power plant is worth and that he worked with Mr. Stuart on the last assessment ten years ago and agrees that he is the man for the job and that it was well worth the money. Hampton+Knodle asked about the timeline and SOA Durston responded that an agreement should be in place at this time next year. **Voice vote: 19 voting Yes, 1 No vote and 1 absent. Voting Yes were** Mary Bathurst, Connie Beck, Megan Beeler, Bill Bergen, Nikki Bishop, Joe Gasparich, Chuck Graden, Heather Hampton+Knodle, Roy Hertel, Tim Hopper, Jay Martin, Gene Miles, Jim Moore, Mike Plunkett, Glenn Savage, Bob Sneed, Mike Webb, Richard Wendel, Evan Young. Beeler stated that all the changes on the reports have been highlighted so that everyone can see what was recently changed.

5. The rate was \$15.50 for many years and Chairman Hertel stated that he drafted the Resolution which has been reviewed and approved by State's Attorney Matoush and Circuit Clerk Lemons. Hertel said the law was deemed unconstitutional so we are changing the amount by County Board Resolution. Animal Control Ordinance – Beck reported that several interested citizens attended their last HWE committee meeting and informed members of a few changes that were made to the ordinance based on their suggestions. Beck went over a summary of the changes and provided a copy of the final draft for everyone's review and said it was also given to State's Attorney Matoush for his approval. She said that the HWE committee will make a recommendation on

the Animal Control Ordinance at their next meeting so that action can be taken at the November board meeting. Hampton+Knodle asked if the ordinance could be voted on in sections at the November meeting rather than in its entirety, and Chairman Hertel responded that he feels it will be best if they vote on the ordinance as a whole because of the amount of work that went into it. Plunkett stated that there are ways to do this process under Robert's Rules of Order.

5. Other Business Update/Approval: None at this time.

PERSONNEL COMMITTEE REPORT: Given by Chairman Mary Bathurst:

1. Employee Health Insurance Approval: Bathurst reported that this has been a painful process and she explained what has transpired in the past few months regarding the employees' health insurance renewal. Bathurst reminded members about the new formula that was approved by the County Board last month where the employees with dependents on the county health insurance will be paying 50% of the premium costs which is expected to save the county about \$200,000 per year. Bathurst also explained that last month the board approved opening up the bidding process for the employee health insurance and that four companies have sent in their qualifications to submit proposals. She said that in order for the bidding process to take place, the employees had to quickly complete a health questionnaire online or by hard copy. Bathurst stated that with the short time frame to get everything done to begin the new insurance on December 1st, 2016, the employees would only have a few weeks to try and get different health insurance for their dependents if the county insurance was too expensive. Bathurst stated that since the last board meeting, Blue Cross Blue Shield representative Shannon Hall has come to the committee with the official BCBS renewal rates for December 1st, 2016 and they will be .21% cheaper than the current premium rates. Bathurst stated that based on this new information she feels that with the short timeframe we need to go with the BCBS renewal and then actively research for a new health insurance program for next year. **Motion by Bathurst and second by Moore that the County accept the final proposal from Blue Cross Blue Shield for the effective dates 12/01/2016 through 11/30/2017 and that we investigate all alternative insurance savings options immediately during this policy period with a plan to bring a thoroughly researched savings option in a practical timeframe before the 12/1/17 renewal date.** Discussion: Beeler stated that the reason that the County went out for bids is that it is our job to get the best rate for the taxpayers and the employees. Beeler stated that she and Bathurst went to address this issue with employees in several departments and they listened to concerns expressed by the employees about how they were going to pay for the additional health insurance increases. Beeler stated that she feels other options need to be looked at because the board needs to say they looked at every option for the taxpayers and employees. Beeler stated that the board members have a job to do and while she understands the tight timeframe she thinks it is worth the time to look for other cost saving options. Hampton+Knodle stated that she agrees with Beeler and said that we need to look at all options. Hampton+Knodle said that the employees are already filling out the paperwork which will have to be re-done if we are waiting until next year to bid out health insurance because their health history will not be accepted by the companies if it is more than 30 days old. Beck stated that she doesn't see an issue with staying with BCBS for now while still looking for other insurance options for next year. Young stated that he was against the motion and explained that we owe it to the taxpayers and the employees to look at other lower cost options and that he is willing to put in the work and time to look. Beeler asked how the new formula would work with the union contracts and Bathurst responded that they will have to open up the contracts for discussion on the issue and

that none of the union contracts state how much the employees have to pay on their premiums. Sneed stated that this is a hard discussion and he feels that we need more time to explore all the options. Chairman Hertel asked Health Department employee Lynn Sellers to address the board regarding the employee health insurance changes. Sellers stated that she has worked at the Health Department for 20 years and she has a twelve year old son who is also on the insurance. Sellers said that she is grateful to have the insurance but the new formula will amount to an over \$200 per month cost increase and will be a financial hardship to her family. Sellers stated that before she took the job at the Health Department she could have gotten a higher paying job, but she took the lower pay to work for the County because the benefits were good. Webb stated that the insurance renewal is a good number from BCBS, but after hearing the problems with employees paying a lot more money, he feels that we need to look at all options now. Chairman Hertel stated that the County has not raised the health insurance premium costs to employees very much for several years and said that smaller increases should have been made over the years so this is not such a large increase at one time. Moore stated that he feels we should not hurry into this and we have time to do this right and we can balance the budget next year. Deabenderfer called for the question. **Roll call vote: 11 voting Yes and 9 voting No. Voting yes were: Bathurst, Beck, Bergen, Bishop, Graden, Hertel, Miles, Moore, Savage, Sneed, Wendel. Voting No were Beeler, Deabenderfer, Gasparich, Hampton+Knodle, Hopper, Martin, Plunkett, Webb, Young. Robinson was absent. Motion Carried.**

Citizen Bill Schroeder was allowed to speak at the end of the meeting, and he thanked the HWE Committee for their work on the Animal Control ordinance and for listening to the input from concerned citizens and said that he feels that the ordinance should be passed.
